Chapter 1 by Wolfato the Bunacado (Wolves4Days) - Inactive

qkuewihfliehfl.kwehrrfqkwe

Chapter 2 by Rix Quill

Someone once said that if you put a monkey in front of a typewriter it would eventually produce Shakespear.

I can't lay my hands on a chimp right now but I do have a dog. She'll have go.

Chapter 3 by ArmoredOreos

The year is 2017: The IT data community has come to embrace that, over the past year, it was proven that animals could generate better encryption algorithms than their human or computer counterparts.

It became apparent after many independent studies, that both humans and computers are to logical minded. Creating to many predictable patterns, even when trying to achieve

cryptographic randomization.
